To Whom It May Concern

We approached Blake Garrett from School Bytes to discuss implementing the School Bytes administration platform at Artarmon PS. We decided to make use of their finance management system to allow us to email our student statement of accounts directly to parents.

After a successful implementation of this system, School Bytes then provisioned their form builder module which we used to manage our online elective subjects for students. We also made use of School Bytes' online preferential voting system to vote for our new school student leadership team.

School Bytes provided training at the school for staff involved with the new systems to familiarise them with its features and functionality .

Blake Garrett has provided outstanding service to the school. He has tailored software to suit our needs and responds immediately to any difficulties we may be facing. I can highly recommend him and would be happy to talk to anyone who requires further information.

Regards

Louise Green
